

BOVET

1822

Fleurier, the cradle of our watch company, is welcoming on September 27th 2004 the official launch of the Fleurier Quality Foundation (FQF) certification.

Representing a new criteria of aesthetic and technical horological perfection, the FQF certification is thereby paying tribute to what has been the guiding principle of our passion since 1822: the flair for detail that is inseparable from good taste. It is uncompromisingly based on the technical mastery of mechanical watchmaking, combined with the time-honoured art of Bovet, which is also expressed by its decorative techniques and particularly through enamelling or “Fleurisane” engraving.

Over 180 years ago, BOVET was the main manufacturer in the Val-de-Travers.

As a founding member of the Fleurier Quality Foundation, Bovet is truly proud to have been awarded its certification. The Fleurier Complication with Perpetual Calendar and moon phase has successfully passed all stages of this rigorous appraisal and thus bears witness to the continuity of the BOVET values.
